

# COLOURFAST 143 SPIRIT BASED STAIN

Colourfast is a spirit based, light fast stain designed for use under Bollom Flame Retardant Varnishes and Lacquers. Colourfast can be applied directly onto barewood to enhance the appearance.

## APPLICATION INFORMATION

**METHOD OF APPLICATION:** Brush, spray or rag

**COVERAGE:** 10-12 sq metres per litre

**DRYING TIME: (Touch)** 2-5 minutes

**PACK SIZE:** 1 and 5 litres

**SHELF LIFE:** 12 months (Unopened)

**(RECOAT)** 10-20 minutes

**FLASH POINT:** Below 20°C

**V.O.C. LEVELS:** 810g/litre

**FINISH:** Matt (must be overcoated)

**COLOUR RANGE:** Brown Oak, English Light Oak, English Walnut, Dark Oak, Repro Yew, Golden Yew, Golden Oak, Antique Mahogany, Antique Pine, Red Mahogany, English Mid Oak, Brown Mahogany, Light Mahogany, Old Walnut, Mahogany, Light Honey Pine, Dark Honey Pine, Stripped Pine, Antique Brown, Medium Brown, Black, Red, Yellow, Green, Orange and Blue.

**THINNERS/EQUIPMENT CLEANER:** Thinner 1000 or BI Thinner

**FURTHER INFORMATION:** These are a versatile range of non-grain raising stains based on organic metal complexes, which are both light and acid fast, in a balanced blend of solvents. This enables them to be used in a number of ways.

Fade resistance is of an extremely high order.

**EXCESS STAIN:** Should be wiped off with a lint-free cloth. This will ensure colour consistency and optimum grain definition.

### SPECIFICATION:

Prepare timber to a standard ready to finish. Apply stain, wiping off excess with a lint-free cloth. When dry the stain can be overcoated with Intuclear Intumescent Varnish, Intulac Water Based Intumescent Varnish or Flamlac Acid Catalysed Lacquer (always read the data sheets before use).

### NOTES:

- Colourfast 143 Stain CANNOT be used to tint Intuclear or Intulac or as a shading stain between coats.
- When spraying Colourfast 143 Stain, a wet coat should be applied, then wiped over with a cloth to even up the colour.
- Always apply the stain to a piece of scrap timber to check colour before committing to the job. If using more than one bottle on the one job ensure they are all the same batch number.
